## Summary

Experienced Full Stack Developer with over 2 years of expertise in designing and building scalable web applications. Adept at delivering high-quality, innovative, and performance-driven solutions. Consistently delivered high-quality solutions to complex challenges, consistently meeting project deadlines, surpassing client expectations, and adjusting technical needs.

## Experience

Associate Software Engineer

Ahmedabad, Gujarat

Tech Holding

January 2023 – Present

- Designed and optimized a robust system for GSUSA (Girl Scouts of the USA), enhancing case management and streamlining operational processes. Client feedback highlighted a significant reduction in case load, improving efficiency and accelerating response times.
- Conducted research on **Google reCAPTCHA** to analyze human activities and a human score prediction engine to accurately distinguish between real users and bots.
- Developed a **PoC to integrate Slack with Redcarpet**, enabling real-time notifications for every action taken within the system.4
- Designed and developed responsive, user-friendly interfaces to ensure seamless functionality across all devices and leveraged **Contentful CMS** to efficiently manage static content in a well-structured and organized manner on the site.

## Projects

### Girl Scout Of USA – Cookie E-Commerce Marketplace

- Designed an effortless web UI to make the web system easy to use and hassle-free.
- Optimized system performance and efficiency, resulting in a **40% reduction in client case load**. This enhancement streamlined operations, improved productivity, and increased user satisfaction.
- Efficiently managed data using **SAP**, ensuring better organization and clear, easy-to-understand data relation representation.
- Conducted R&D and implemented **Google reCAPTCHA** in a web app to detect human activity and prevent bots from placing fraudulent orders using a **human score prediction engine**.

**Tech**: HTML, CSS, JS, jQuery, Ajax, Java, SAP, PSQL

**Red Carpet – Employee Onboarding & Offboarding System**

- Designed user-friendly and Seamless UI dashboards to streamline the onboarding and offboarding process.
- Integrated Jira, Slack, Harvest, and Gmail services to automate both account creation and deletion, resulting in a nearly 40% reduction in manual workload for the HR team.
- Assisted to code reviews and testing efforts, maintaining high code quality.

  **Tech**: ReactJS, Node JS, Express, JavaScript, AWS, PostgreSQL, JEST, MUI6.

## Personal Project

- Healthcare Cost Estimator (Python, Pandas, Scikit learn, matplotlib, Jupiter notebook,)
- s2a Connect (JS, AJAX, Bootstrap, Django and MYSQL)

## Technologies

- **Frontend:** React.js, HTML, CSS.
- **Backend:** Node.js, Express.js,
- **Language:** Javascript, Python.
- **Database:** MongoDB, PostgresDB.
- **Other:** AWS, Terraform

## Education

**Dharmsinh Desai University – Nadiad, Gujarat (July 2019 – May 2023)**

Bachelor of Technology – Information Technology

## Certification

- AWS AI Practitioner
- AWS Certified Cloud Practitioner
- HashiCorp Certified: Terraform Associate
